EDUCATION

Bachelor's Degree in Computer Science

Bahir DarUniversity — 2026

PROFESSIONAL SUMMARY

Passionate Full-Stack Developer with experience building modern web applications and software systems using technologies such as JavaScript, React, Node.js, Java, and MySQL. Skilled in designing responsive user interfaces, developing scalable backend services, and integrating databases. Experienced in developing academic and personal projects including e-commerce platforms, study collaboration systems, service marketplaces, and real-time chat applications. Strong problem-solving abilities and eager to contribute to innovative development teams.

TECHNICAL SKILLS

Programming Languages

- JavaScript
- Java
- PHP

Frontend

- HTML5
- CSS3
- Tailwind CSS
- React

Backend

- Node.js
- Express.js
- REST APIs

Database

- MySQL
- MongoDB (basic)

Tools & Platforms

- Git
- GitHub
- VS Code
- NetBeans
- npm

PROJECTS

StudyHive – Full Stack Study Platform

- Built using React, Node.js, and MySQL
- Implemented user authentication and secure login system
- Developed RESTful APIs for managing study resources and user interactions
- Designed responsive frontend interface

FixItNow – Service Marketplace

- Platform connecting users with service providers
- Implemented service listings, request features, and user accounts
- Built responsive frontend and backend logic

GibiShop – E-commerce Web Application

- Developed product catalog, shopping features, and user interface
- Implemented backend logic for managing products and users

Gegerland – Hotel Booking Platform

- Full-stack hotel booking web application
- Implemented booking features and room management functionality

Multi-User Chat Application

- Built using Java, JavaFX, and MySQL
- Implemented user authentication and real-time messaging
- Integrated file transfer and multi-threaded server handling
